

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

[Translated in this Bureau from the "Veröffentlichungen des Kaiserlichen Gesundheitsamtes," Berlin, August 3, 1898.]

**BRITISH EAST INDIES.**—The Governor of Burmah issued, under date of May 28, 1898, the following regulations for the ports of Ranju, Moulmein, Bassein, and Akyab, to prevent the introduction of plague by means of rats from ships:

1. No vessel arriving at any one of the ports named shall, without written permit from the customs officer, anchor at the quay or pier.

2. The customs officer shall deliver the written permit only when in his judgment the unloading apparatus of the vessel is not sufficient for the taking on or unloading of a cargo.

3. The vessel receiving the written permit shall approach the quay or pier only by daylight, and shall remain there only so long as is necessary, in the opinion of the customs officer, for the lading or unloading of a cargo.

The same regulations hold good for the landing or taking on board of passengers.
